

The XBLUE Wireless Office Speakerphone (WiOS) allows freedom of movement around your facility, while maintaining the valuable benefits of your XBLUE 45p/Xplus100 telephone system.

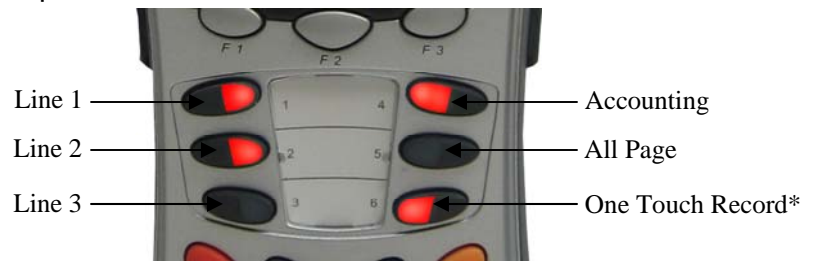

Just like the XBLUE 45p/Xplus100 desk telephone the WiOS provides an easy to use 3-line interactive LCD, with back lighting added for ultimate viewing in changing environments.

And, keep your Desk Telephone favorite features such as speakerphone, voice announce intercom with answerback, Caller ID and DSS/BLF buttons with the freedom of a wireless telephone.

Each WiOS has 6 flexible buttons which can be programmed as follows:

- *Telephone Lines* — provides direct access to outside lines
- *Extension Button Appearance* — provides busy indication and one touch dialing to other telephones.
- *Feature Buttons* — Speed dialing, Paging, Do-Not-Disturb, etc.
- *One Touch Record* — When not at your desk, record important information, such as telephone numbers and appointments, without searching for paper and pencil.

* Requires integrated 45p/Xplus100 voice mail
